CONGRATULATIONS!

You are getting married!

As married couples ourselves, we know just how exciting, and sometimes nerve-wracking, the planning process can be. So much time, love, and intention goes into one magical day.

At Spotlight Socials, we don't take that lightly.

It's our job (and our joy) to capture every thoughtful detail, every beautiful candid moment, and all of the people you love most - so you and your guests can stay fully present and phone-free, knowing your memories are being carefully preserved for you to cherish forever.

We also understand that weddings can be a significant investment. That's why we offer a range of packages to suit what you're looking for: from long-form cinematic videography to short-form highlights with smartphone content creation.

Your wedding is completely bespoke and that's exactly how we approach our work.

Every booking begins with a video consultation where we'll talk through styles, music, what matters most to you, and who matters most to you, so we can bring your vision to life in a way that feels truly personal.

Everyone says it and they're right - the day goes by in a flash, so make sure you have something meaningful to look back on and relive for years to come.

We'd be honoured to tell your story x

Rhi & Beth xx
